

WEA THE SIGN BOARDS

Warner's Safe Cure the Victor Among Modern Medicines.

It was once believed that a finger ring made from a coffin nail would cure epilepsy. The tooth of a soldier who had been killed in battle was regarded as a remedy for toothaches. Imagine such ghastly nonsense as this passing as medical science! Yet the human mind, like the human body, must creep before it can walk. In time men learned to reason and medicine was put upon a rational basis. Back in the old days some childish or disgusting mess would have been used to relieve indigestion. Mark the progress illustrated in this letter from J. E. Stockwell of Lincoln, Neb.

"I have been badly afflicted with trouble of the stomach and have used nearly all kinds of medicines and doctored with local physicians to no avail. After being almost completely discouraged, I was advised to use Warner's Safe Cure, which I did, and I am glad to be able to say that it is the only remedy that has done me any good. I have used three bottles and am feeling like a new man all over. I am thankful to the Warner's Safe Cure Co. for their medicine, and can recommend it cheerfully to those suffering as I have suffered."

Another instance of the victory of rational medicine is afforded by Jacob Cramp of Birdsboro, Berks county, Pa., who wrote, May 10th, 1898:

"I have taken five bottles of Warner's Safe Cure. It relieved me of the pain over my kidneys. When I got down I could hardly get up again. I did not know what was wrong with me. I could hardly do my work. I heard of Safe Cure and thought I would try it. After taking one bottle I felt better. I am very grateful for Warner's Safe Cure, and would advise people to try it."

Just one case more. Averett Perry of Louisiana, N. C., says:

"I have taken only one bottle of Warner's Safe Cure and it has done me more good than anything else I ever took. I had an aching feeling in the pit of my stomach. I want to thank you from the bottom of my heart. I can recommend Safe Cure as the finest medicine in the world."

Does the clear and energetic language of these men leave any doubt of their sincerity? The stomach derangement spoken of is commonly associated with the approach of Bright's disease. No pointed Indian ever crept to a settler's cabin more stealthily than Bright's disease invades the body. A dull, white skin, tendency to perspire, indigestion and a short breath give warning of the enemy.

Lose neither time nor courage. Take Warner's Safe Cure regularly, and bear in mind that it has a record of twenty glorious years. It cures all ailments of the kidneys, liver and bladder, including even the terrible disease named Dr. Bright. The road to health is open, if only you read the sign board aright.

SEVEN PATIENTS ADDED

Smallpox Discovered in a House on 11th Street Northwest.

Those Afflicted and Two Suspects Removed to Hospital—Health Officer's Precautionary Measures.

As the result of an investigation of an anonymous letter received by Dr. Wm. C. Woodward, the District health officer, yesterday afternoon, seven cases of smallpox were last evening discovered at 1425 P street, where twenty-three persons, being Louis E. Brooks, five years of age; Lewis Brooks, thirty-seven years; Rosa Brown, twenty-nine years; Annie Parker, twenty-eight years; Florence Brooks, fourteen years; Lottie Brooks, seven years, and Jas. Brooks, thirty-three years, all colored. In addition to these persons, two others, Lucinda Brooks, aged thirty-seven, and Lillie Johnson, twenty-three years of age, both colored, were found living in the house. The two last named, however, were not afflicted, but they were removed to the hospital with the others and subsequently taken to the city hospital.

The anonymous letter received by Dr. Woodward read as follows:

"The family of Brooks, living on P street northwest, has the smallpox. His wife, Huciatine must have carried it there in his wool clothes. He is now living there."

Dr. Woodward at once directed that a search be made for the Brooks family, but such a family could not be located on P street, and then Dr. Woodward proceeded to see if the name mentioned in the letter as "Hue Haine" was not that of a colored man known as Hugh Haine, who resided at 2506 11th street, and who had been afflicted with the disease, but who had been removed to the hospital, but when questioned by the health department officials denied any knowledge of the Brooks family.

Finally he admitted an acquaintance with the family, and from information furnished by him it was found at 1425 11th street, where the health department inspectors were at first refused admission to the house, but were finally admitted, when the afflicted persons were discovered. It also appeared that Arthur Brooks, who is said to have contracted the disease the latter part of December or early in January, resided in the house, and from him the other inmates are supposed to have contracted it. Arthur Brooks, however, fled from the house upon the appearance of the officials, and has not been apprehended. Dr. Woodward feels that there is little if any danger to the community, but that the health officer may be cleansed, and that the health officer may learn more of the history of the cases.

No Fear of Serious Results.

Dr. Woodward is of the opinion that there is not so much danger to be feared from these cases, as appears on the surface, as the members of the family have kept close to the house, with the exception of one of the Brooks children, Lottie, who is said to have attended the Garrett public school, but not since the 13th of last month. Contractor Saxton's men have worked with the men in the open air it is not expected that any more cases will develop from among those who came in contact with him.

The infected house has been thoroughly

disinfected, and every precaution has been taken by the health department to prevent a spread of the disease from those residing therein.

Up to a late hour this afternoon no other case had been reported, although the health officer's attention has been directed to a suspicious case of illness.

CONFERENCE WITH MR. WINES.

Several Administrative Officers of the Census Appointed.

The preliminary organization for the census of 1900 took definite shape last night at a conference between Director of the Census Merriam and Assistant Director Frederick H. Wines, who arrived here yesterday. Several important offices in the census administration were filled.

Colonel Albert E. Childs of the District of Columbia will be chief clerk; Dr. McCauley of the District of Columbia, disbursing officer, and William A. King of Colorado to be one of the chief statisticians. Both Colonel Childs and Mr. King held similar offices under the census of 1890. These appointments will shortly be made.

Some of their duties, and under the supervision of ex-Governor Merriam and Assistant Director Wines, will get the work of the organization under headway. The organization will be moved from the old building now occupied into new temporary quarters, and as soon as possible well-equipped permanent headquarters established. Governor Merriam will leave tomorrow for his home in Minnesota to close up his private business affairs. He will be away about ten days. Mr. Wines, the assistant director, who will superintend the actual statistical work, will be in charge here during his absence.

Director Merriam's policy will be to select administrative officers from the standpoint of competence and skill in the particular branch they are intended for, while Mr. Wines' policy will be to have under his command men who will have to undergo a merit examination. No further work will be filled for at least a fortnight, and there will be no general making of appointments for several months.

The 160th Indiana to Go Out.

In pursuance of the administrative policy of bringing home all the volunteer troops in Cuba for muster out in anticipation of peace with Spain, orders were issued for the muster out of the 160th Regiment, Indiana Volunteer Infantry, now at Camp. The regiment will be brought home as soon as a troopship is available and will be transported to the place of enrollment in Indiana for disbandment. The order for the muster out of the volunteer troops in Cuba has been left to the discretion of Gen. Brooks, commanding the entire division, on the theory that he is the best judge of the organizations that can best be relieved of military duty on the island.

Frederick H. Wines.
